UDEMY

ABOUT ME

Hey there! I'm a third-year student at Quezon City University, majoring in Information Technology. Passionate about tech and problem-solving, I'm always up for coding challenges and staying updated with the latest trends.

PROJECT EXPERIENCE

PROJECT MANAGER / PROGRAMMER
FEB 2024 - MAY 2024

As the project manager and programmer for our school project, I led the creation of a high-level super system consisting of five main systems: warehouse, customer, accounting, personnel and payroll. In my leadership skills, I am committed to the success of the project and coordinating tasks and deadlines to ensure goals are met. Meanwhile, using Python and Flask, I developed a powerful API as a project using PostgreSQL as the backend. This API provides a strong foundation for our system and enables integration and cross-functionality. Wearing many hats, I combined strategic control with technical expertise and ensured the implementation of a clean management system that suits the needs of our potential client.

PROJECT MANAGER / PROGRAMMER
AUG 2023 - DEC 2023

Led the development of a comprehensive school management system for Emilio Jacinto National High School. Utilized VB.NET and MySQL to create a desktop application aimed at enhancing administrative operations and educational delivery. Oversaw the project lifecycle, coordinated cross-functional teams, and formulated strategic plans to address educational needs. Resulted in significant improvements in administrative efficiency and educational processes, setting a new benchmark for academic management.

PROJECT MANAGER / PROGRAMMER
JAN 2023 - MAY 2023

As project manager, I led the development of an online order and delivery system for Yochabel Bakeshop, using C# and an Oracle database. This streamlined their processes and enhanced customer service. My responsibilities covered the entire project lifecycle, from planning to deployment. The project improved operational efficiency and customer engagement, marking a significant digital transformation for the bakery.
